WEB DEVELOPER

ABOUT ME

I'm a junior web developer, transitioning from a career in policy development and project management in the public sector. I am a confident and proactive worker with strong communication, research and strategic planning skills. I bring a wealth of experience, and an international perspective to my work.
I'm passionate about learning, and finding practical solutions to issues around environmental sustainability and using my newfound development skills to do so.

SKILLS

Javascript	Ruby on Rails	PostgreSQL
React	HTML5	Data Analysis
Node.js	CSS3	Project Management
Express	MongoDB	Research & Policy Design

EDUCATION
